

FEATHER RIVER AIR QUALITY MANAGEMENT DISTRICT

REGULATION VII - FEES

RULE 7.0 - FEES, GENERAL

(Adopted 6/2/97; Amended 7/1/02; Amended 7/14/03)

A. PURPOSE

To establish fees to recover the reasonable costs of District operations and to recover state costs pursuant to section 44380 of the California Health and Safety Code.

B. WAIVER OF FEES

To the extent allowed by law, the District Board may waive any fees required under Regulation VII when, in the judgment of the Board, good cause exists for waiving the fees and the waiver of such fees would be in the District's best interest.

C. CONSUMER PRICE INDEXING (CPI) ADJUSTMENT OF FEES

Stationary Source fees may be adjusted by up to the change in the annual California Consumer Price Index. The California Consumer Price Index shall be determined by using the category for All Urban Consumers between April 1 of the prior year to April 1 of the current year as determined by section 2212 of the California Revenue and Taxation Code. If the Air Pollution Control Officer anticipates the need for a change, the adjustment must initially be proposed as part of the annual budget process. The proposed rate change must meet the requirements of the California Health and Safety Code, including sections 41512.7(b) and 42311(a). The rate change must be noticed as part of the proposed and final budgets. If the Board of Directors approves a fee change with the final budget, the Air Pollution Control Officer may adjust fees by up to the maximum rate approved by the Board.
